

TECHNICAL DATA

BOTANICAL NAME: *Cynodon dactylon*

KEY FEATURES:

Excellent year-round dark green colour.

Soft and fine width leaves

Dense under foot, with a “spongey” feel under foot.

Fast and even vertical growth

Low seed head production making it highly suitable for cylinder mowing.

Compact rhizomes beneath the surface keeps the field exterior tight and secure

Due to its fast growth, it repairs itself quickly.

PERFORMANCE:

PURPOSE/USAGE	Sporting fields/stadiums, cricket wickets and households.
ESTABLISHMENT	Can be established year round, however will take longer to root down in Winter
MOWING	20mm – 35mm. Suitable for cylinder mowing
MAINTENANCE	Requires regular mowing due to rapid growth rate.
WATER REQUIREMENTS	Low compared to other sports couches
COLOUR	Dark green colour all year round
FERTILISER	Requires fertilising 3 – 4 times a year with the change of seasons due to its high performance
DROUGHT TOLERANCE	Good drought tolerance. If left to brown over Winter, it will recover with watering or a significant rain event.
SALT TOLERANCE	Medium salinity tolerance
WEED RESISTANCE	Pest and disease resistant
WEAR	Excellent, however if signs of wear become apparent, it will repair itself quickly
SEED HEAD	Low seed head prouction
COLD TOLERANCE	Superior colour retention compared to other premium sports couches. Can withstand light frosts.
HUMIDITY TOLERANCE	Good humidity tolerance. Does best in full sun
DISEASE RESISTANCE	High
