

TECHNICAL DATA

BOTANICAL NAME: *Cynodon dactylon*

KEY FEATURES:

Known as the King of Couch.

Legend Couch has a lush, dark green/blue colour.

Whilst still effected by frosts, Legend Couch has a good resistance to cooler temperatures

It develops a dense, low thatch which makes it resistant to weeds. Which in turn, makes it less reliant on chemicals.

Legend Couch has rapid establishment and an excellent ability to repair itself quickly.

Legend Couch has long been the couch of choice for elite sporting facilities, including Blue Tongue Stadium

PERFORMANCE:

PURPOSE	Sporting fields, golf courses and residential
ESTABLISHMENT	Establish Spring to Autumn. Slow growing in Winter, goes into dormancy
MOWING	Summer 10 – 12mm; Winter 15 – 18mm
MAINTENANCE	Medium level of maintenance with moderate inputs of water and fertilizer
WATER REQUIREMENTS	Required during establishment, then only when needed
COLOUR	Will discolour during the colder months, however will bounce back in Spring
FERTILISER	Requires fertilising 3 – 4 times a year with the change of seasons
DROUGHT TOLERANCE	Moderate to high drought tolerance due to deep root system
SALT TOLERANCE	Medium salinity tolerance
WEED RESISTANCE	Pest and disease resistant, however sensitive to many chemicals. Make sure you always read the label for suitability
WEAR	Moderate to high wear tolerance. Recovers rapidly from signs of wear.
SEED HEAD	Can produce seed head if stressed
COLD TOLERANCE	Enters dormancy in Winter. Browns when frost effected
HUMIDITY TOLERANCE	Good humidity tolerance. Does best growing in temperatures between 20 – 30 deg.
DISEASE RESISTANCE	High
